

Inquiry Form

Extraction Period (Price Decline, Temporary Suspension)

1- Natural People:

1-1- Information about the owner of the extraction license:

Name and Surname:

ID Number:

Issued from:

Father's name:

Date of Birth:

Place of Birth:

National ID Number:

1-2- Legal People:

Firm/Company:

Number and Establishment Date:

A Copy of the article of association and the newspaper have to be attached.

Address, Phone Number, Fax and E-mail:

2- Information on the Extraction License:

2-1- Name of the Mine:

2-2- Number and Date of the Extraction License:

Validity: ... Years

2-3- Geographical Location of the Mine:

Province:

City:

Region:

Village:

Address and the scheme of the region:

2-4- The Extracted Mineral or Minerals:

2-5- The Mineral or Minerals' Carat:

2-6- Fixed Mineral or Minerals Supplies: ... tons.

2-7- The Average Annual Production: ... tons.

2-8- $\frac{W}{O}$ Ratio: ... $\frac{(Wight)}{(Mass)}$

2-9- Extraction Method:

Open Surface

Underground

A mixture of different methods

2-10- The Estimated Price ... IRR per ton.

2-11- Average Selling Price: ... IRR per ton.

2-12- The Extraction Area: ... km²

3- Exploration Vertex Coordinates:

Vertex	A	B	C	D	E	F
Longitude						
Latitude						

4- Technical Manager:

Name and Surname:

License Number and Date:

Category:

Score:

Professional Skills:

Address, Phone Number and E-mail:

5- Mining Activity Experience:

5-1- Has this mine ever been extracted?

Yes

No

5-2- How many years ago was the mine extracted? ... Years

For how long was the mine extracted? ... Years

What was the average annual production then? ... tons.

6- The longest activity duration:

How many days a year?

During which months?

7- Have you ever had any mining activities?

Yes

No

If Yes, What kind of activity did you have?

Exploration

Extraction

Processing

The activity Period: ... years.

Name of the mineral:

Activity Results:

... items with good results

... items cancelled

... items without clear results

Please give a brief explanation in case the activity was not successful.

8- Please mention how and where the extracted minerals were used. Give the address of the using units.

9- Can the extracted minerals be exported?

Yes

No

... tons a year

Value:

.... Current

.... IRR

10- The current, or working, or needed man power in the unit: (unit-person)

Education	More than BA		BA		Associate Degree		High school Diploma		Elementary School		Illiterate		Total

11- What are the costs sources (investments)?

- Private
- Loan
- Co-ownership

12- If you have requested for a loan, the amount requested is ... IRR, of which ... IRR have been granted.

- The requested loan is in the is being considered.
- The requested loan is still in the offering stage.

13- Has your mining activities ever been suspended because of economic reasons?

- Yes

No

13-1- The reasons behind price decline:

- Imports
- A change in quality
- Practical change or replacement with other material
- A decline in the global price
- Other reasons (please state what the other reasons are)

13-2- The reason behind the temporary suspension:

- Natural environment
- Natural Resources
- Police
- Local People
- A change in macro policies and rules of the country
- The operation area not being safe enough
- Earthquake
- Flood
- Landslide
- Explosion
- Collapse
- Fire
- Water inundation
- Other reasons (please estate the other reasons)

If yes, please explain, when, where, and why, and please start from the most dangerous to the least dangerous one.

14- Has there been any safety threatening cases in the mining activity region?

Yes

No

If yes, why and for how long?

15- The mining activity area has been subjected to which of the events mentioned below?

Earthquake

Flood

Landslide

Explosion

Collapse

Fire

Water inundation

Other

15-1- If yes, how much was the damage?

15-2- What technical or safety measurements have been taken into account in order to decrease the damages from accidents?

15-2-1- The safety measurements already done:

15-2-2- The safety measurements predicted to be done:

16- According to you, which of the possible dangers mentioned below can be a reason to suspend the mining activity?

A:

A change in macro policies and rules of the country

The operation area not being safe enough

A disagreement with the local People

B: A disagreement with the execution organizations:

Natural Environment

Natural Resources

Police

C: Natural disasters:

Earthquake

Flood

Landslide

Explosion

Collapse

Fire

Water inundation

D: A decrease in the price:

Imports

A change in the quality

A practical change or replacement

A decrease in the global price

E: Other reasons (please state the other reasons)

16-1- Please list the above mentioned dangers from the most dangerous to the least dangerous.

16-2- What technical or safety measurements have been taken into account, or will take place in the future, in order to decrease or stop the above mentioned dangers?

17- Your offer regarding the compensation for the damages caused by the temporary suspension or a decline in the price:

17-1- In case of temporary suspension:

17-1-1- The longest insurance coverage within the time that the insurance policy is still valid: ... days.

17-1-2- Your offer to compensate the damage for each day during the suspension: ... IRR

17-2- In case of a decline in the price:

17-2-1- The longest insurance coverage within the time that the insurance policy is still valid: ... days.

17-2-2- Your offer to compensate the damage caused by a decline in the price for the production unit from ... IRR to ... IRR.

I announce here, that all the questions in this inquiry has been answered honestly and with total awareness.
